FOR IMMEDIATE RELEASE

DIMETIS and Divitel signed Cooperation Treaty

DIETZENBACH, GERMANY, September 05, 2019 – Dimetis GmbH (www.dimetis.com), a leading software developer of broadcast, media, and OSS automation solutions, today announced that Divitel B.V. (www.divitel.com), a market leader in video system integration and services, and Dimetis will start to co-operate with each other on the joint development, sales, and integration of software solutions for DVB networks.

Named cooperation is grown out of ever-changing market requirements. With the fact of a paradigm shift from hardware and appliance-based system architectures towards NFV/SDN driven designs for Commercial-Off-The-Shelf (COTS) CPU power and network connectivity both companies add their expertise for value-added tailor made solutions.

“The Dimetis Network Management System platform allows customers to manage their broadband and broadcast operations more efficiently,” said Mr. Thomas Will, CEO of Dimetis GmbH. “It is very powerful that customer can manage multiple vendors in a multi service network by using a single screen.”

“By combining Dimetis’ multi-vendor software solution with Divitel’s end-to-end system integration and data driven automated operations , we are able to provide video broadcasters with the new tools they need to easily manage and increase the profitability of their video services,” said Mr. Hans Kornmann, CEO of Divitel B.V. “We are proud to partner with Dimetis to bring this world-class technology to our customers and theirs.”

About Dimetis

Streamlining Operations – For nearly two decades Dimetis has developed world-class tools for Media Workflow Automation, Video Workflow Orchestration, Post Production Workflow, NFV/SDN Orchestration and much more. Dimetis is a truly agnostic vendor, interfacing and working with all vendors, hardware or software.
