FOR IMMEDIATE RELEASE

## **DIMETIS TO EXHIBIT AND DEMONSTRATE NEW BROADCAST PRODUCTIVITY TOOLS AT THE 2017 IBC SHOW – RAI AMSTERDAM**

**DIETZENBACH, GERMANY**, September 12, 2017 – Dimetis ([www.dimetis.com](http://www.dimetis.com)), a leading software developer of broadcast and Operations Support Systems (OSS) solutions, today announced it will be exhibiting and demonstrating new broadcasting software solutions and tools at the 2017 IBC (International Broadcasting Convention) show, held 14-18 September, 2017 in RAI Amsterdam, Hall 01, Booth# B30. Demonstrations will include:

- **OpsNGN™** – As content and broadcast networks move fully to the IP-based IT world, new complexities and challenges can arise. OpsNGN removes complexities by:
  - Orchestration – Streamline day-to-day management & automate provisioning
  - Service Protection – Preserve revenue streams and keep customers *delighted*
  - Rapid Service Delivery - HDR, 4K & beyond / optimized workflows
- **mX Media Exchange™** – Media management platform for broadcasters and service providers
  - Management, automation and transfer of large video/audio files with drag & drop functionality. Connects beautifully with 3rd party systems.
- **BOSS BROADCAST Manager™** – Comprehensive management software platform for monitoring, configuration, and control of streaming facilities, multiplex centers, IPTV, Digital Video Broadcasting (DVB) and Advanced Television Systems (ATSC/HDTV).
  - Monitors & controls large number of devices *independently* of manufacturer and technology.

The IBC show encompasses the convergence of media, entertainment and technology industries and expects over 55,000 attendees from more than 170 countries.

### **About Dimetis**

Dimetis is a leading company providing automation and orchestration solutions over the last 25 years with various projects in the broadcast and telecom OSS domains. The Dimetis global installed base of customers include such broadcasters as ARD and ZDF in Germany, as well as RAS and Rayway in Italy and network operators AT&T, A1 Telekom Austria GlobeCast France, Hibernia (USA & Europe), Telstra Australia, and Telenor Norkring Norway.

Dimetis is a member of the TMF, IETF, ETSI NFV, EBU, IABM, FKTG & SMPTE bodies, which are dedicated to defining functional requirements and standards for the next generation networks and emerging architectures. For more information please visit <http://www.dimetis.com>.
